

**Product Name :**  
Soybean Extruder Machine

**Product Code :**  
EQMH-CHINA-MY3005010

**Description :**

Soybean Extruder Machine

**Technical Specification :**

Soya Chunks comes from defatted soy flour. It's also quick to cook and a great source of vegetable protein without all the fat.

For instance, it's excellent in chili, tacos, veggie burgers and soups.

It can be boiled in high temperature with different taste or added into meal product as stuffing, the same to meat, your family will hardly be able to tell the difference.

Raw materials : Adopts defatted soya flour as raw materials

Soybean extruder machine Capacity : 100-150kg/h,240 - 260 kg/h, 500kg/h, 1ton/h

Soybean extruder machine Flow chart : Mixing system---Extrusion system----Drying system--Packing system

Voltage: 380V/50Hz for three phase, 220V/50Hz for one phase, we can make it according to customers' Local voltage according to different countries.

Installed Power

40KW

75KW

150kw

Output

100-180KG/H

400-600KG/H

800-1000KG/H
