

Product Name :
Artificial Nutrition Rice Extruder

Product Code :
EQMH-CHINA-MY3006002

Description :

Artificial Nutrition Rice Extruder

Technical Specification :

14 years of experience in the production and export of food products.

Provide different product formulations.

Warranty for one year, long-term supply of spare parts at reduced prices.

Engineers on site installation and commissioning, training of technicians.

Provide a professional choice of equipment, technological process, consultations on the design of the plant.

The main machine adopts advanced frequency converter speed regulation technology, which makes the equipment powerful, runs more smoothly and saves electricity.

Forced lubricating system to ensure a longer life of the transmission part of the equipment.

Intelligent touch screen control system, you can clearly see various working parameters and achieve precise control. Therefore, the resulting product is of higher quality.

Easy to operate.

The screw has a self-cleaning function, and it is not necessary to disassemble the screw for cleaning when the machine is stopped.

This is a multifunctional extruder. In addition to producing all kinds of artificial rice (fortified rice, golden rice, nutritious rice, instant rice), it can also produce all kinds of puffed snacks, such as puffed corn balls,
