

Product Name :
Diesel Engine Floating Fish Feed Machine

Product Code :
EQMH-CHINA-MY3006008

Description :

Diesel Engine Floating Fish Feed Machine

Technical Specification :

Diesel dry-way type floating fish feed pellet extruder machine mainly use maize, fish powder, meat powder and some food additive as main raw material, through mixing, extruding, roasting, flavoring to get the final puffed pet food. And also called pet fish food making machine.

This high efficiency fish feed pellet making machine is widely used for making feedstuff for all kinds of fish. The pellet size from 1.5mm to 12mm, fit for different fishes. The pellet can floating on the water over 12 hours, no have any pollution to the water and the fish.

We have different scales, the capacity from 50kgs to 2 tons (this is a production line) per hour. We can also make new machines according to the clients' different requirements.

Screw Dia. ?mm?	Capacity ?kg/h?	Diesel Horsepower?HP?	Feeding Power ?kw?	Cutting Power?kw?
40	30-40	12	0.4	0.4
50	60-80	18	0.4	0.4
60	120-150	25	0.4	0.4
70	180-200	30	0.4	0.4
80	200-250	35	0.6	0.6
