

Product Name :
Floating Fish Feed Machine

Product Code :
EQMH-CHINA-MY3006010

Description :

Floating Fish Feed Machine

Technical Specification :

Automatic animal feed machine floating fish feed pellet extruder Application:

Floating Fish Feed Pellet Making Machine is mainly proper for frog, aquatic, ornamental fish, pet feed farmers, pet feed, fish farmers, Small and Medium feed factory, institutes of scientific research and so on.

The raw materials can be wheat, soybean, cake and other leftovers etc.

Its main work principle is changing mechanical energy into heat energy to extrude material.

The cutting system adopts the cutter shaft positioning spring and cutting mode to achieve stepless speed change, which can cut the output to any desired length.

Easy to install, easy to disassemble, easy to disassemble, and easy to operate.

The screw are made of a special wear-resistant high-temperature and high-humidity material, 38 chromium molybdenum aluminum, which is tempered and then heat-treated to form, which has the advantages of wear resistance and long life.

Equipped with a unique pressurized die device to ensure feed yield and quality.

Capacity kg/h	Main Power	Feeding Power	Screw diameter	Cutter power	Pellet size
40-60kg/h	7.5kw	0.4kw	φ40mm	0.4kw	1-12mm
60-80kg/h	11kw	0.4kw	φ50mm	0.4kw	1-12mm
100-150kg/h	15kw	0.4kw	φ60mm	0.4kw	1-12mm

180-250kg/h	18.5kw	0.4kw	?70mm	0.4kw	1-12mm
300-350kg/h	22kw	0.4kw	?80mm	0.6kw	1-12mm
400-450kg/h	37kw	1.1kw	?90mm	0.6kw	1-12mm
500-700kg/h	55kw	1.1kw	?120mm	1.5kw	1-12mm
800-1000kg/h	75kw	1.1kw	?133mm	2.2kw	1-12mm
1200-1500kg/h	90kw	1.5kw	?155mm	2.2kw	1-12mm
1800-2000kg/h	132kw	1.5kw	?195mm	3.0kw	1-12mm
