

Product Name :
Tunnel Dehydrator Microwave Belt Dryer

Product Code :
EQMH-CHINA-MY3007008

Description :

Tunnel Dehydrator Microwave Belt Dryer

Technical Specification :

Why Choose Microwave Drying

Faster production cycles ? Higher output

Lower operational costs ? Reduced energy bills

Premium product quality ? Extended shelf life & enhanced safety

Ideal for: Spices, herbs, grains, seafood, pharmaceuticals, and heat-sensitive materials.

Industrial Microwave Dryer is a new type of drying equipment with high production efficiency and low operating cost.

It is also an efficient and environmental friendly energy-saving equipment; especially for foods that contain bactericidal and fresh-keeping functions while drying.

This equipment has been widely involved in the pharmaceutical, food, chemical, building materials and other industries.

Fast drying speed and uniform drying.

High production efficiency and high product quality.

Automatic heat balance performance.

Responsive and easy to control.

Power	Size (mm)	Width of belt (mm)	Size of microwave box (mm)	Type
-------	-----------	--------------------	----------------------------	------

6KW	3200x850x1700	500	950	Air cooling
10KW	5500x850x1700	500	950	Air cooling
20KW	9300x1200x2300	750	950	Air/water
30KW	9300x1500x2300	1200	1150	Air/water
50KW	11600x1500x2300	1200	1150	water
60KW	11600x1800x2300	1200	1150	water
80KW	13900x1800x2300	1200	1150	water
100KW	16200x1800x2300	1200	1150	water
300KW	29300*1800*2300	1200	1150	water
500KW	42800*1800*2300	1200	1150	water
1000KW	100000*1800*2300	1200	1150	water
